

The Department of Health is the agency responsible for the administration of the Title V program in Florida. Maternal and child health responsibilities are divided between Family Health Services (pregnant women and children) and Children's Medical Services (children with special health care needs). The Department of Health administers health programs through its county health departments and Children's Medical Services offices. Healthy Start continues to be our priority maternal and child health initiative in Florida. Healthy Start is designed to ensure access to maternal and child health services to all women and children in Florida. Other efforts to improving maternal and child health include services to substance exposed newborns, Fetal and Infant Mortality Review projects, improving pregnancy outcomes, prenatal smoking cessation, and pregnancy associated mortality review. Services for children with special health care needs include the Early Intervention Program, high risk obstetrical satellite clinics, Regional Perinatal Intensive Care Centers and clinic-based medical and therapeutic care.

## MATERNAL & CHILD HEALTH (MCH) MEASURES

Title V - MCH National Performance Measures	State 2004 Results	State 2009 Goal
The percent of newborns who are screened and confirmed with condition(s) mandated by their State-sponsored newborn screening programs (e.g. phenylketonuria and hemoglobinopathies) who receive appropriate follow up as defined by their State.	99.0%	99%
The percent of children with special health care needs age 0 to 18 who receive coordinated, ongoing, comprehensive care within a medical home. (CSHCN Survey)	46.8%	59%
Percent of children with special health care needs age 0 to 18 whose families report the community-based service systems are organized so they can use them easily. (CSHCN Survey)	69.4%	79%
Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.	85.3%	90%
The rate of birth (per 1,000) for teenagers aged 15 through 17 years.	22.2	20
The rate of deaths to children aged 14 years and younger caused by motor vehicle crashes per 100,000 children.	3.6	3.1
Percentage of mothers who breastfeed their infants at hospital discharge.	65.6%	76%
Percentage of newborns who have been screened for hearing before hospital discharge.	98.0%	99%
The percent of very low birth weight infants among all live births.	1.6%	1.2%
Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester.	80.7%	87.4%
Title V - MCH National Outcome Measures	State 2004 Results	State 2009 Goal
The infant mortality rate per 1,000 live births.	7.0	6.6
The ratio of the black infant mortality rate to the white infant mortality rate.	2.2	1.7
The neonatal mortality rate per 1,000 live births.	4.5	4.1
The postneonatal mortality rate per 1,000 live births.	2.5	2.1
The perinatal mortality rate per 1,000 live births plus fetal deaths.	12.2	12
The child death rate per 100,000 children aged 1 through 14.	21.7	19
Title V - Selected MCH State Performance Measures	State 2004 Results	State 2009 Goal
The percentage of Part C eligible children receiving service	97.2%	98%
The percentage of infants screened by Healthy Start	69.6	81
The percentage of pregnant women reporting domestic violence on the PRAMS survey	*	8.7%
